

For your consideration. I am a mother of 4. Anybody who has children will understand the constant attention that has to be given to their surroundings. K-Love is the very best alternative to the mess of words and insinuations our public radios now have to offer. My children will always have to "make their choices", I know that by listening to K-Love I am giving them a better start to a pretty messed up world. Taking K-Love off the air would be an enormous disservice to the hundreds of thousands who listen every day. K-Love's saying is "positive & encouraging K-Love". In all truthness where can you get that in today's society. Please, please, please consider my family and many others as we ask for K-Love to remain strong & intact. Our communities can only benefit, and that is a true fact. Thank you for your time & God's blessings to you!
